

*******License for the "AJAX Basic Template" by Dynamic Maps*******

General terms

- This license is good for the "AJAX Basic Template" only.
- This license never expires.
- This license allow the use of the plain code in any number of application.
- This license is valid for a whole enterprise (excepted for enterprise offering IMS hosting services. See Exceptions.)

Restrictions

By using any training and code delivered and produced by Dynamic Maps, you agree to:

- Never distributes the content of the kit to any person or enterprise outside your enterprise.
- Never sale the content of the "AJAX Basic Template", even partially, to any person or enterprise (you can include the function in an web-mapping application and sell this application however).
- Never display any part of the "AJAX Basic Template" on Internet (you can include the function in a Manifold web-mapping application and put this application on Internet however).
- NEVER USE THE COMMENTED VERSION OF THE CODE IN ANY APPLICATION. You have to use the plain code instead, always. The commented code is for training purpose only.

Rights

This licence give you the right to receive any future update without charge. Dynamic Maps may stop releasing update at any moment, without notice.

Exceptions

This product cannot be used as a part of an IMS hosting service delivery. An IMS hoster cannot use the "AJAX Basic Template" to provide a frame that allow the clients of an IMS hoster to upload map in it. But a client who have a license for the "AJAX Basic

Template" can use the service of an IMS hoster to host any number of map served by the "AJAX Basic Template".

Contact sales@dynamicmaps.net to obtain a license if you provide IMS hosting service.
